

-1-

**RESIDENTIAL ELECTRIC
RATE SCHEDULE 1**

This schedule applies to all permanent residential customers for normal residential uses. Services to be provided will be 120/140 volt as set forth in the Municipal Electric Tariff

SERVICE CHARGE:
\$8.50 per month (min)

ENERGY CHARGE:
All energy, January through December, \$0.09126 per KWHr

**POWER COST
ADJUSTMENT: ***

-2-

**COMMERCIAL ELECTRIC
RATE SCHEDULE 2**

applies to all permanent commercial and industrial customers, except those served under the Commercial Demand Rate. Service is for all normal commercial and industrial uses. Services to be provided will be 120/240 volt, single, or three phase, with special voltage available at the discretion of the Municipality as set forth in the Municipal Electric Tariff.

SERVICE CHARGE:
\$9.50 per month (min.)

ENERGY CHARGE:
All energy, January through December, \$0.09126 per KWHr

**POWER COST
ADJUSTMENT: ***

-3-

**RURAL ELECTRIC
RATE SCHEDULE 3**

This schedule applies to all permanent rural customers, for all normal farm and rural residential users. Services to be provided will be 120/240 volt as set forth in the Municipal Electric Tariff.

SERVICE CHARGE:
\$17.50 per month (min.)

ENERGY CHARGE:
All energy, January through December, at \$0.09126

MINIMUM BILL:
\$17.50 service charge, or \$1.00 per KVA of transmitter capacity required, whichever is greater.

**POWER COST
ADJUSTMENT: ***

* **POWER COST ADJUSTMENT:** The **ENERGY CHARGE** shown above is based on a wholesale energy cost to the City of \$0.0349 per KWHr and will be increased by an amount equal to the amount by which the actual cost of wholesale energy to the City varies from \$0.0349 per KWHr. Actual monthly rates reflect additional costs for power incurred by the city and appear as a monthly power cost adjustment on utility bills.

**OPTIONAL DEMAND RATE FOR
COMMERCIAL ELECTRIC
SERVICE SCHEDULE 4**

This schedule will be applied to any commercial or industrial customer with more than 100 H.P. or 100 KV commercial load. Service is for all normal commercial and industrial uses.

Services to be provided will be 120/240 volt, single or three phase, with special voltage available at the discretion of the Municipality, as set forth in the Municipal Electric Tariff.

DEMAND CHARGE:

All kilowatts @ \$3.20 per KW

ENERGY CHARGE:

All energy, January through December, \$0.0787 per KWHr

POWER COST ADJUSTMENT: *

MINIMUM BILL:

\$1.00 per H.P. and/or KV connected load.

DEMAND BILLING:

Demand billing based on demand meter reading of the highest 15 minute integrated demand for the month
